Table Clinic Topics:
- **How Does Diabetes Affect Oral Health?**
- **How Essential Oils Affect Oral Health**
- **Care and Therapy of Peri-Implants for the Dental Hygienist**
- **No Smoke, But Plenty of Flame: Effects of E-cigarettes and Smokeless Tobacco on the Oral Cavity**
- **Can Botox Be Beneficial in Dentistry?**
- **What Does Your Tongue Say About You?**
- **Five Minutes To Save A Life: Oral Cancer Screening**

---

Iowa Central Dental Hygiene students will be presenting table clinics. Each table clinic is about five to seven minutes long.

Upon completion of this course, the participants will have an understanding of the following topics: diabetes and oral health, essential oils, peri-implants, E-cigarettes and smokeless tobacco, Botox, what your tongue says about you, and oral cancer screenings.
